- Shopify (Hydrogen/Remix)
- Google Analytics / Tag Manager

PROFILE

I'm a Software Engineer who's always looking to grow, learn, and build things that actually matter. I enjoy tackling tricky problems, working on challenging projects, and finding clean, practical solutions.

I'm also AI-driven, using AI tools to work smarter, move faster, and push what I can build a bit further every day.

No matter the challenge, I'm the type to figure it out and get it done properly.

WORK EXPERIENCE

Scrum.com / NPI.IE / Infinite Payments

- **Senior Software Engineer** **JUNE 2024 - PRESENT**
 - As a Software Engineer at scrums, I contribute to the development and enhancement of the NPI Buddy Dashboard, a platform enabling merchants and partners to onboard and offboard Point-of-Sale (POS) systems as well as sales and billing invoices system sent to merchants and partners.
 - I work within a fast-paced Agile environment, participating in bi-weekly sprints focused on delivering scalable, production-ready features.
 - My responsibilities include frontend and backend development, integration of partner workflows, and supporting the United Kingdom expansion of the product.

WBWR

- **Intermediate/Lead FStack Developer** **JULY 2023 - JUNE 2024**
 - Overseeing task delegation and providing guidance to junior developers, conducting code reviews, and actively participating in the development process.
 - Contributed to building and delivering new projects for brands such as Vans, Dermalologica, and Früt, while also maintaining existing web applications, demonstrating versatility in project development.
 - Leading a team for the upgrade of the Under Armour Web Application to Remix Framework, guiding junior developers, reviewing code demonstrating strong leadership and adaptable development skills.
- **Junior Full Stack Developer** **OCTOBER 2022 - JUNE 2023**
 - Collaborated with senior team members as a Junior Full Stack Developer to create and launch new projects, actively involved in their development from inception to completion.
 - Played a key role in testing and maintaining the Under Armour mobile app (Android & iOS) and newly developed web applications, ensuring their functionality and performance.
 - Contributed to the development and maintenance of web applications for renowned bicycle brands like Giants, Liv, and Avalanche, engaging in the full project lifecycle to deliver high-quality solutions.
- **Web Developer** **JULY 2022 - SEPTEMBER 2022**
 - Developed, tested, and maintained new website features for brands like Crocs, Birkenstocks, Under Armour, and 2XU during my internship as a Web Developer.
 - Helped improve website functions to ensure great user experiences and performance for these well-known brands during my internship.
